Microtube Picker

Compatible with most major brands of cryogenic vials

Ziath's Microtube Picker allows one-handed removal of cryogenic vials and screw-cap microtubes from racks.

The Microtube Picker simplifies retrieval of tubes, minimises heat transfer and reduces the risk of cross contamination.

Features

- Single handed operation
- Tube selection from anywhere in the rack
- For use with cryogenic vials and screw-cap microtubes
- Easy-grip
- Reduces risk of thawing and contamination
- Simplifies retrieving samples
- Suitable for most major brands of cryogenic vials and screw-cap microtubes
